

D.B.M.S College of Education

(Recognised by National Council for Teacher Education)
Affiliated to Kolhan University, Chaibasa & J. A. C., Ranchi, Jharkhand
Road No. 23, Farm Area, Kadma, Jamshedpur-831005 | Phone : 2309097
E-mail : dbms.edu23@gmail.com | Website : dbmscollege.in

4.2.2 (b): INSTITUTION HAS REMOTE ACCESS TO LIBRARY RESOURCES FOR THE TEACHERS AND STUDENTS USE

In order to enable remote access to library resources, D.B.M.S. College of Education has purchased a DELNET subscription. Following the epidemic, we have considered using DELNET to evaluate books from far-off locations, which will be advantageous to both teachers and pupils. The main goal of DELNET's establishment was to encourage resource sharing amongst libraries by creating a network of libraries. In addition to providing customers with computerized services, its objectives include gathering, storing, and disseminating information; coordinating efforts for appropriate collection development; and, whenever feasible, minimizing needless duplication.

The "National Library and Information Services Infrastructure for Scholarly Content (N-LIST)" project, which is being carried out in collaboration between the INDEST-AICTE Consortium at IIT Delhi and the e-ShodhSindhu Consortium at INFLIBNET Centre, enables i) cross-subscription to e-resources that are subscribed by the two Consortiums, i.e., e-ShodhSindhu resources for technical institutions and INDEST-AICTE resources for universities; and ii) access to specific e-resources for colleges. Through server(s) installed at the INFLIBNET Centre, the N-LIST project gives instructors, researchers, and students from universities and other beneficiary institutions access to e-resources. After being properly verified as allowed users via servers set up at the INFLIBNET Centre, authorized users from universities can now access e-resources and download the articles they need straight from the publisher's website.

Additionally, the INFLIBNET Centre is in charge of creating and implementing suitable software tools and methods for approved user authentication.
