4.2 LIBRARY AS A LEARNING RESOURCE

4.2.1 LIBRARY IS AUTOMATED USING INTEGRATED LIBRARY MANAGEMENT SYSTEM (ILMS)

D.B.M.S. College of Education is a private institution in Jamshedpur. The library features a large reading hall and is automated. Fifty people can be seated in the reading area at once. Numerous scholarly books, journals, encyclopaedias, biographies, research projects, and other educational materials, periodicals, and newspapers are available at the college library. Students are given access to books to help them learn more about a variety of topics. Membership entries for staff and students are made using the library management system, which allows students to check the status of book returns and issues. There is no fee if the book is returned by the deadline. Additionally, Wi-Fi has been installed in the library.

Our Own Integrated Libaray management system is used to automate the library's operations. The program is used for all of the Library's housekeeping tasks, including data entry, book issue and return, and renewal, member updates, and more. There is a reading and reference area. Users can also search the collection of books by title, author, publisher, and other criteria using the OPAC (open public access catalogue) service. Users receive a unique barcode ID after the books are barcoded. Apart from the printed books, the library has access to e-resources from n-list, which is a part of the e-shodhsindhu consortium of INFLIBNET, where the users are given awareness and made to browse and download e-books, e-journals, databases, etc. User orientation is provided at the beginning of the year regarding the various facilities, services, and resources available in the library.
