6.1.1 THE GOVERNANCE OF THE INSTITUTION IS REFLECTIVE OF AN EFFECTIVE LEADERSHIP AND PARTICIPATORY MECHANISM IN TUNE WITH THE VISION AND MISSION

Governance and Planning at DBMS College of Education

DBMS College of Education fosters the holistic development of prospective teachers through committed management and participative governance. The institution's long-term vision and overall direction are led by the President and the Governing Body. The President heads the governing body, while the Secretary manages administrative functions, and the Principal oversees academic activities.

To fulfill the college's mission, multiple statutory and non-statutory bodies operate effectively, including the Governing Body, Finance Committee, IQAC, various academic and welfare committees, and grievance redressal cells. The governance style is democratic, cooperative, and human-centered, encouraging active participation from staff and students.

Perspective plans focus on inclusive education by admitting tribal and economically disadvantaged students, promoting social exposure, communicative English coaching, cultural development, intensive teaching practice, and ICT training. These plans are communicated through prospectus, academic calendar, website, and meetings with stakeholders.

Teachers and non-teaching staff actively participate in decision-making through committees such as IQAC, Staff Council, Anti-Ragging, and Grievance Redressal, ensuring smooth academic and extracurricular functioning. Faculty members also organize major college events and share responsibilities in reaccreditation through decentralized core teams, reflecting a collaborative institutional culture.
